No. 38, Vol. 5

ABBOTSFORD, B.C., Wednesday October 5, 1927

\$1.50 per Year

Meets Mary Queen of Scots

A cameraman who had just arrived at Banff, Alberta, to "cover" the Scottish Musical Festival staged at the Banff Springs Hotel recently, was strolling through the hotel grounds, drinking in the beauty of the surrounding mountains, when, in a picturesque corner of the gardens, he came upon the most romantic figure in Scottish history—Mary Queen of Scots. She was standing on the flatstone walk toying with some flowers and when she saw him, smiled at the astonished man just as the real Queen would have smiled several hundred years ago.

Recovering from the shock the cameraman did not take long in adjusting his trusty camera and the result, reproduced above, is a charming study of Miss Francis James who impersonated the famous Queen during the three-day festival at Banff.

NOTICE TO SUBSCRIBERS

Through an error, a number of subscribers have been sent incorrect statements of subscription account. We trust those who are paid-up will overlook the mistake. And that those who are in arrears will not overlook the statement. A discount is given for prompt remittance of subscription.

Matsqui P. T. A. is giving a whist drive and dance in the hall next Thursday at 8 p.m. Monthly meetings of the organization are being arranged, and all parents of the district are cordially invited to attend and participate in the efforts to improve school conditions.

Mrs. Hurdle and children of Victoria are visiting Mrs. Pitts, Yale road. Miss Florence Roberts spent the week-end at her home.

ABBOTSFORD

Mr. W. H. Hudson arrived home last week from Cape Breton Island, where he has been for the past month visiting various points he has not seen since he left the east over 20 years ago. He found conditions very quiet in the coal and iron sections, and many changes. Snow was encountered all the way from Port Arthur to Banff on his return journey.

Mr. Duncan Campbell of Vancouver visited his sister Miss K. Campbell over the week-end.

Mrs. Little returned from a holiday in Everett last week.

Ladies of the M.S.A. Hospital W. A. met yesterday afternoon, and decided to engage the theatre for the holding of their fifth annual bazaar. This year each district will arrange individual stalls, this plan being agreed upon by the large attendance present.

Delair Condensary Being Enlarged

Plans are nearing completion for the enlargement of the Pacific Milk condensary here, and some of the new machinery, including canning machines and processing kettle, have already been arranged for. A new warehouse and factory building is to be erected, and it is understood a contract has already been let for excavation of some 1,500 yards of earth to level a site for the new structures.

As was indicated in these columns a year ago, the Milk Producers' Association has decided to close the Ladner plant and merge certain of the equipment with that at the Delair plant. A larger staff will be required and other changes, which will be reported in a later issue.

Three Baby Boys Arrive At Hospital

Born—To Mr. and Mrs. L. Van Cad-sand, Sumas Prairie, Sept. 22, a son. Born—To Mr. and Mrs. Chas. Hol-brow, Clayburn, Sept. 25, a son. Born—To Mr. and Mrs. Wm. Prentice, Clayburn, Sept. 26, a son.

Mr. Keith Rothluff of Matsqui is a patient in the M.S.A. Hospital under observation with appendicitis.

Mr. J. Gilmore was given attention this week for a gashed hand, sustained while at work at the mill.

Mr. J. Hunter, of Abbotsford, was discharged after being a patient for one week with influenza.

Mr. Ed. Murphy was given treatment yesterday for a minor ailment.

Matsqui Game Association Meets

At a meeting of Matsqui Game Protective Association held last Saturday it was decided to affiliate with the B.C. Angling & Game Association. Mr. T. J. Blackadder was added to the list of deputy wardens (H. Shogren, A. Hougden, C. Farr), and his appointment is being recommended to the police commissioners.

Offers Novelty Feature At Dance

Mrs. T. York is providing a novelty attraction at a dance dated for Friday of this week in her Bridge Pavilion. "Pay" envelopes will be issued to every purchaser of a dance ticket, containing a slip which is good for a prize, ranging in value from 10c to \$2.50.

Mrs. H. Fraser was hostess at a family re-union in her home on Sunday last, when Mrs. Stefan of Chilliwack, Mr. Donald Fraser of Portland, and Mr. Colin Fraser of North Bend were visitors. Mrs. J. Kirkpatrick of Burnaby, formerly of Brandon, is a guest this week.

A. C. Brand, accountant at the Royal Bank, left for Prince Rupert on Saturday, having been transferred to the bank branch there. F. B. Steeves has arrived from Vancouver to fill the vacancy.

PRINTED CHRISTMAS GREETINGS:

We have secured the exclusive representation for a collection of most exclusive designs, practically all steel-die embossed, offering an extensive selection which will avoid duplication of the same design.

All typographical work on these fine greetings is executed in the News office, allowing for your own favorite wording, or selection from a score of original greetings in our texts.

Your order can be handled until a few days before Christmas, so you are not obliged to pay a deposit to some eastern publisher months before your cards are needed.

Our prices will range especially low this year, and customers will save a considerable amount by placing their order at home.

A phone call will bring the sample book to your door.

UNRESERVED

AUCTION SALE

of 17 Head of High-Grade Holstein and Jersey Dairy Cattle, Furniture and Farm Machinery

Under instructions from MARTIN ELLESON, I will sell by public auction on the premises at GIFFORD STATION on the B.C.E. Railway, on

SATURDAY, OCTOBER 15, 1927 commencing at 1:30 sharp, the following:

CATTLE—8 head of Grade Holsteins and Jerseys from 3 to 6 years of age, of which four will freshen before date of sale; 1 due in December; 1 due in February; and 2 in March. Two 2-year olds and two yearlings. 1 grade Holstein Bull, 2 years old.

This is a clean, high-testing herd of cows, always received a clean sheet from Govt. T.B. testers and never lost a calf.

Other cattle not yet listed will be sold on this date; open for additional entries.

Household Furniture—1 Oak Side-board with plate-glass mirror; 1 wood Heater, 1 Coal Heater, 1 Bicycle, Etc. Farm Machinery—1 Steel Harrow; 1 14-in. Stubble Plow, &c.

TERMS CASH unless otherwise arranged before sale.

H. G. MYHRE, Auctioneer DR. J. F. WOOD, Clerk. Phone Ab. 108L

New Hotel for Queen City of the Plains

Upper—Rotunda of the new Hotel. Lower—The Dining Room is of Italian design. Insets—The new Hotel Saskatchewan and T. E. Chester, the manager.

One of the most beautiful buildings in Western Canada is the "Hotel Saskatchewan," Regina's new hotel, which was officially opened by E. W. Beatty, President of the Canadian Pacific, on May 24. In it the architects have sought to provide the maximum of convenience and comfort for its guests and to obtain the most pleasing architectural effect.

Regina's need for a new hostelry has been felt keenly for some time, as the city's importance as capital of the province which furnishes 50 per cent. of the Dominion's wheat output, has been steadily increasing. The erection of a hotel in Regina was interrupted by the war, and the removal of the old steel structure less than a year ago, marked the first step towards the realization of Regina's dream of a new modern hotel, which at last has been brought about through the enterprise of the Canadian Pacific Railway.

Pleasing artistic effects have been achieved throughout the interior of the building. The public rooms, which are numerous and spacious, each have a character of their own. The Tea Room and Ro-

tunda, for instance, have a Spanish atmosphere. The walls of the former are of antique mottled and decorated plaster with a base of stone and a carved stone mantel, while the ceiling is a wood rib and beam ceiling, painted and decorated.

One of the most comfortable and homelike rooms in the hotel is the library, situated on the first floor. The walls are of paneled wood with enclosed book-cases.

The exterior is no less beautiful than the interior. It is designed in Georgian style, the first two storeys being faced with Tyndale or Fossil stone quarried near Winnipeg. The main entrance is particularly striking with its tall Corinthian pilasters and arched windows.

There are 216 guest bed-rooms with baths, and space for 36 more on the two top floors of the building which, as yet, have not been finished.

On account of the nature of the soil, the hotel was erected on a reinforced concrete mat with structural steel plate girders embedded in the concrete. It is eleven storeys high and absolutely fire-proof.

Reclamation Resolution Approved

At a special meeting of Abbotsford District Board of Trade held this afternoon, a resolution prepared for presentation at the Associated Boards of Trade meeting, covering the Sumas reclamation assessments situation, was approved. Messrs. N. Hill and G. Heller were named to present it at New Westminster on Saturday.

Miss Vera Bedlow and her brother Eddie have returned to Abbotsford, she having resumed her studies here, while Eddie has secured a position in the Royal Bank.

Mrs. Bedlow will return next week. Local members who attended the District Conference of the Women's Missionary Society at Milner on Saturday, were—Mrs. H. Fraser, Mrs. Duark, Mrs. White, and Misses Vera and Flossie Hunt.

Mr. B. R. Whitely of Cloverdale, who was married to Miss Matheson (also of Cloverdale), passed through Abbotsford, on a wedding trip through the Cariboo, and incidentally paid a flying visit to his brother-in-law S. P. White.

Miss Wilson of Sumas Prairie was given attention in Sumas hospital last week for a scaled foot.

The first regular meeting of newly formed Girl's Circle was held at the home of President, Mrs. V. Hunt, on Monday.

A dance is announced for Saturday night next in Peardonville Community Hall.

Reliable Clock and Watch Repairs Jewellery, Etc.

REVIEW NO. 20 OF W. B. A.

will hold an Afternoon Tea, Home Cooking & Apron Sale

ON SATURDAY, OCTOBER 8th from 3 p.m. in vacant store in Hotel Atangard (adjoining Hotel lobby). Your patronage is solicited.

NOTICE TO HUNTERS

Sportsmen are herewith reminded that practically the entire Matsqui dyking district is embraced in the Matsqui Dyking District Game Protective Association, and no hunting will be allowed without permit on any of the lands so protected.

It is the determination of land-owners to protect hunting rights over their lands, and sportsmen are specifically advised to secure from the land-owners concerned a properly signed permit before hunting over any part of the area.

Game wardens have been appointed to intercept hunters, and to effect prosecution in any case of trespass.

RESOLUTION—

Passed in regular meeting held October 1—

"That all farmers and landowners who were members previous years be allowed to post their places and get membership tickets free of charge.

All new members to be charged the usual 50 cents, and all who are not land owners, and all non-residents \$2.00 each for membership."

Wild Life Of Western Canada

Not least among the attractions that Western Canada has for many people, whether permanent resident, tourist or sportsman, is the abundance and variety of its wild life, and now that the hunting season is at hand it is opportune to make something more than a passing reference to the value of this great asset to all of our Western Provinces.

Judged from any and all standpoints the wild duck and geese, prairie chicken, partridge, and other game birds are of immense value to this country. They constitute a picturesque feature of life on the prairies and are a constant source of delight to the lover of nature. What greater pleasure can be had than to witness the flight of duck in the early dawn or as the sun sinks to rest? A man must be of a very stolid nature indeed who does not get a thrill as he watches them winging their way across the sky.

To the hunter our game birds offer the best of opportunities for the display of the keenest marksmanship, coupled with the best sportsmanlike qualities. And, finally, they provide a welcome addition to our food supply, a delicacy appreciated by all.

Later in the season comes the opportunity for the big game hunter to match his craft and skill with the deer and moose. In a word, the wild life of the West is a drawing card for thousands of people. Without these game birds and animals the West would not be the West which attracts and holds.

But human nature being what it is, it became necessary for Governments by legal enactments to protect these friends of man from man himself. As a result, the open season for shooting has had to be curtailed, and the size of "bags" greatly restricted in order to save birds and animals from extermination. And it is only through the strict observance of these laws, and a rigid compliance with all regulations, that a further curtailment of privileges now enjoyed can be avoided. Laws have been passed and regulations are enforced by Governments, not for the purpose of depriving hunters and citizens generally of the privilege of shooting, but in their own interests that it may be preserved and continued to them.

There are still some individuals in this world, who wrongly style themselves "sportsmen," who consider it sport and something to be proud of and boast about to shoot an inordinately large number of birds in a day or a season. These individuals revel in having their photographs taken, gun in hand, and with their "kill" displayed around them. The real sportsman, and the true citizen, looks upon all such exhibitions with regret, and a loathing contempt. It is one thing to shoot for food, or for an hour or two of the real thrill that comes to the true hunter, but quite another to engage in a worse than useless orgy of wanton slaughter. The man who will kill and kill for the mere joy of killing and in order that he may boast of his "bag" is no sportsman; on the contrary, he is the enemy of all sportsmen, and, in the final analysis, his own enemy. In the language of the old fable, he is destroying the goose that lays the golden eggs.

The writer of this article has no desire to preach; he is not a killjoy. But he would, even on the sordid grounds of self-interest, not to mention more lofty motives, urge all the people of Western Canada to constitute themselves unofficial game guardians, to fully and loyally observe the spirit and letter of the game laws themselves, and see to it that other people do likewise.

71-Year-Old Triplets

Abraham, Isaac and Jacob Waggoner, seventy-one year old triplets, claim the distinction of being the oldest triplets in Tennessee and possibly in the United States. They have lived all their lives within ten miles of one another, have never been ill enough to require a doctor's services and do not smoke, chew or drink.

A French watchmaker has invented a watch that tells time without hands. A moving dial turns inside a stationary rim. The minutes appear on the rim and the hour is shown through an opening in the dial.

According to British research experts, London's smoke cloud excludes nearly two-thirds of the beneficial ultra-violet rays of sunlight from that city.

Dial numbers have been converted into raised numbers to enable blind persons to tune in different stations on the radio receiver.

Aviation Enters New Era

The recent inauguration of a country-wide system of air express marks the passage of aviation from its present era of stunt stuff with its inevitable high cost in human life, to the comparatively safe and sound basis of every day commercial use, in the opinion of R. E. M. Cowie, president of the American Railway Express Company.

Statistics prove that while, on an average, women are now marrying at an earlier age than formerly, the age of the bridegrooms is proportionately older.

She—"I've been married three times—and each time my husbands have been Williams."

He—"I'll say you're a clever Bill collector."

Another experiment to hasten trans-Atlantic mails is being made. Planes will overtake and drop mail on liners far out to sea.

CHILDREN CRY FOR

Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is especially prepared to relieve Infants in arms and Children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. H. C. Fletcher*. Absolutely Harmless—No Opiates. Physicians everywhere recommend it.

North Best For Whites

Tropics Only Suitable For Colored Race Says Scientist

The white races must eventually turn toward the polar regions in search of new homes, Dr. R. N. R. Brown, president of the Geographical section, told the British Association for the Advancement of Science at a meeting in Leeds, England.

"There is no real evidence that the whites are suited for permanent residence in the tropics," Dr. Brown declared. "All evidence that is conclusive suggests that the colored races will eventually occupy the warm lands."

"Eventually the tide of white settlement will definitely set northward, even to the Arctic seas, and in its flood destroy the present inhabitants."

Removes Touchy Corns Brings Solid Comfort

Acts like magic—takes out all the pain—makes aching corns feel comfy in a few seconds. That's how Putnam's Corn Extractor acts. You will not be disappointed with "Putnam's"—it never fails to lift out corns or remove painful callouses. Get "Putnam's Extractor" from your druggist. Refuse a substitute.

Another Evolution Theory

British Zoologist Thinks Man Developed From Jelly Fish

If you are musical, like dancing, or have poetical instincts, you may thank your jelly fish progenitors of aeons ago, in the opinion of Dr. G. P. Bidder, British Zoologist. Dr. Bidder outlined his theory that man developed from the lowly jelly fish in an address at Leeds, England, before the British Association for the Advancement of Science, and added:

Our appreciation of dancing, poetry and jazz music is due to the metabolic rhythm inherited from our flagellate forefathers, and shows that we are still flagellates at heart."

MADE HER BABY PLUMP AND WELL

Nothing makes a mother more grateful than a benefit conferred upon her child. Mothers everywhere who have used Baby's Own Tablets for their children speak in enthusiastic terms of them. For instance, Mrs. Zephirin Lavoie, Three Rivers, Que., writes:—"Baby's Own Tablets are a wonderful medicine for little ones. They never fail to regulate the baby's stomach and bowels, and make him plump and well. I always keep a box of the Tablets in the house and would advise all mothers to do likewise." Most of the ordinary ailments of childhood arise in the stomach and bowels, and can be quickly banished by Baby's Own Tablets. These Tablets relieve constipation and indigestion, break up colds and simple fevers, expel worms, allay teething pains and promote healthful sleep. They are guaranteed to be free from injurious drugs, and are safe even for the youngest and most delicate child. The Tablets are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

In Abyssinia, a telephone message must first be written and handed to the operator, who in turn, shouts it into the transmitter, no one else being permitted to use the instrument.

Worms in children work havoc. These pests attack the tender lining of the intestines, and, if left to pursue their ravages undisturbed, will ultimately perforate the wall, because these worms are of the hook variety that cling to and feed upon the interior surfaces. Miller's Worm Powders will not only exterminate these worms, of whatever variety, but will serve to repair the injury they have done.

French Scientist Poorly Paid

Edouard Branly Has Worked Fifty Years Under Trying Conditions

Edouard Branly is cited by newspapers as typifying the struggle of French scientists to work under miserable conditions. Branly is inventor of the condenser. France calls him the "father of the wireless."

Branly has as his only assistant in a ramshackle "laboratory" an aged woman who ekes out a living by doing extra hours of housework in other homes. This maid of all work is now the scientist's "laboratory chief." She was intelligent and the professor trained her in his work.

For fifty years Branly has worked under these conditions, drawing a salary of about \$75 a month as professor and supporting his family by occasional practice as a physician. These facts are told by French papers as illustrating the need to pay well men who give their lives to science.

The speediest bacteria can travel only about four inches in 15 minutes.

Minard's Liniment eases sore feet.

Best of all Fly Killers—10c and 25c per packet at all Druggists, Grocers and General Stores.

Operates Restaurant 'Plane

Added To Paris-London Service By French Aviation Company

A "restaurant 'plane" has been placed in daily operation on the air line between Paris and London by a French aviation company, the Air-Union, according to advices to the Department of Commerce from W. H. Kelley, automotive trade commissioner to Europe.

A cold luncheon is served, including hors d'oeuvres, lobster, duck, veal, ham, salad, cheese, fruits and coffee, with wine, water or tea. In the near future an electric stove will be installed for preparing warm food.

The 'plane carries a pilot, a radio operator, cook, waiter and ten passengers and their baggage. It is one of the fastest in Europe, covering 335 miles in two hours.

Like a Grip at the Throat. For a disease that is not classed as fatal there is probably none which causes more terrible suffering than asthma. Sleep is impossible, the sufferer becomes exhausted and finally, though the attack passes, is left in unceasing dread of its return. Dr. J. D. Kellogg's Asthma Remedy is a wonderful remedial agent. It immediately relieves the restricted air passages as thousands can testify. It is sold by dealers everywhere.

Proposes Scientific Holiday

Bishop Of Ripon Would Drop Work For Ten Years

Feelings ranging from amazement to amusement have been aroused in British circles by the suggestion from the Rt. Rev. Edward Arthur Burroughs, Bishop of Ripon, for a ten year scientific holiday.

Sir Daniel Hall, scientific advisor to the Board of Agriculture, is quoted as terming the proposition equivalent to asking the business man who finds difficulty in keeping up his end commercially to stay in bed for a certain length of time in order to save money and expense.

The Duchess of Atholl, president of the Education Section of the British Association for Advancement of Science, remarks: "We may be breathless and feel tired in the race to secure knowledge but we cannot settle down and do nothing for ten years. That is quite impossible."

Sir Oliver Lodge said that if the Bishop's criticism referred only to the application of science he might agree with him. As examples, he mentioned television and aviation. Any stoppage in the advance of knowledge however would be a very serious thing.

Sir Oliver added that "although" we are now living in a great period of scientific advancement, rather than saintless and philosophy, the era of philosophy will dawn again and I think we may take heart."

Used by physicians—Minard's Liniment.

A Professor of Psychology claims that brown eyes are an indication of a weak will. He might also add that black ones are an indication of a weak defense.—Judge.

It is estimated that \$300,000,000 worth of automobiles are stolen annually in the United States.

ECZEMA ITCHED A GREAT DEAL

Over Face, Neck and Hands. Cuticura Heals.

"Eczema broke out all over my face, neck and hands. It was in blisters and itched a great deal. My skin was awful sore and red, and sometimes the blisters would break and water would come from them. I was not able to do my work, and lost a lot of sleep. The trouble lasted over six months."

"I tried many different remedies without success. I began using Cuticura Soap and Ointment and after using four cakes of Cuticura Soap and three boxes of Cuticura Ointment I was completely healed." (Signed) Miss Laura J. Brine, Botsford, Portage, N. B.

Give Cuticura Soap and Ointment the care of your skin. Sample Each Free by Mail. Address Canadian Agents, "Minard's Liniment," 1701, 1703, 1705, 1707, 1709, 1711, 1713, 1715, 1717, 1719, 1721, 1723, 1725, 1727, 1729, 1731, 1733, 1735, 1737, 1739, 1741, 1743, 1745, 1747, 1749, 2081, 2083, 2085, 2087, 2089, 2091, 2093, 2095, 2097, 2099, 2101, 2103, 2105, 2107, 2109, 2111, 2113, 2115, 2117, 2119, 2121, 2123, 2125, 2127, 2129, 2131, 2133, 2135, 2137, 2139, 2141, 2143, 2145, 2147, 2149, 2151, 2153, 2155, 2157, 2159, 2161, 2163, 2165, 2167, 2169, 2171, 2173, 2175, 2177, 2179, 2181, 2183, 2185, 2187, 2189, 2191, 2193, 2195, 2197, 2199, 2201, 2203, 2205, 2207, 2209, 2211, 2213, 2215, 2217, 2219, 2221, 2223, 2225, 2227, 2229, 2231, 2233, 2235, 2237, 2239, 2241, 2243, 2245, 2247, 2249, 2251, 2253, 2255, 2257, 2259, 2261, 2263, 2265, 2267, 2269, 2271, 2273, 2275, 2277, 2279, 2281, 2283, 2285, 2287, 2289, 2291, 2293, 2295, 2297, 2299, 2301, 2303, 2305, 2307, 2309, 2311, 2313, 2315, 2317, 2319, 2321, 2323, 2325, 2327, 2329, 2331, 2333, 2335, 2337, 2339, 2341, 2343, 2345, 2347, 2349, 2351, 2353, 2355, 2357, 2359, 2361, 2363, 2365, 2367, 2369, 2371, 2373, 2375, 2377, 2379, 2381, 2383, 2385, 2387, 2389, 2391, 2393, 2395, 2397, 2399, 2401, 2403, 2405, 2407, 2409, 2411, 2413, 2415, 2417, 2419, 2421, 2423, 2425, 2427, 2429, 2431, 2433, 2435, 2437, 2439, 2441, 2443, 2445, 2447, 2449, 2451, 2453, 2455, 2457, 2459, 2461, 2463, 2465, 2467, 2469, 2471, 2473, 2475, 2477, 2479, 2481, 2483, 2485, 2487, 2489, 2491, 2493, 2495, 2497, 2499, 2501, 2503, 2505, 2507, 2509, 2511, 2513, 2515, 2517, 2519, 2521, 2523, 2525, 2527, 2529, 2531, 2533, 2535, 2537, 2539, 2541, 2543, 2545, 2547, 2549, 2551, 2553, 2555, 2557, 2559, 2561, 2563, 2565, 2567, 2569, 2571, 2573, 2575, 2577, 2579, 2581, 2583, 2585, 2587, 2589, 2591, 2593, 2595, 2597, 2599, 2601, 2603, 2605, 2607, 2609, 2611, 2613, 2615, 2617, 2619, 2621, 2623, 2625, 2627, 2629, 2631, 2633, 2635, 2637, 2639, 2641, 2643, 2645, 2647, 2649, 2651, 2653, 2655, 2657, 2659, 2661, 2663, 2665, 2667, 2669, 2671, 2673, 2675, 2677, 2679, 2681, 2683, 2685, 2687, 2689, 2691, 2693, 2695, 2697, 2699, 2701, 2703, 2705, 2707, 2709, 2711, 2713, 2715, 2717, 2719, 2721, 2723, 2725, 2727, 2729, 2731, 2733, 2735, 2737, 2739, 2741, 2743, 2745, 2747, 2749, 2751, 2753, 2755, 2757, 2759, 2761, 2763, 2765, 2767, 2769, 2771, 2773, 2775, 2777, 2779, 2781, 2783, 2785, 2787, 2789, 2791, 2793, 2795, 2797, 2799, 2801, 2803, 2805, 2807, 2809, 2811, 2813, 2815, 2817, 2819, 2821, 2823, 2825, 2827, 2829, 2831, 2833, 2835, 2837, 2839, 2841, 2843, 2845, 2847, 2849, 2851, 2853, 2855, 2857, 2859, 2861, 2863, 2865, 2867, 2869, 2871, 2873, 2875, 2877, 2879, 2881, 2883, 2885, 2887, 2889, 2891, 2893, 2895, 2897, 2899, 2901, 2903, 2905, 2907, 2909, 2911, 2913, 2915, 2917, 2919, 2921, 2923, 2925, 2927, 2929, 2931, 2933, 2935, 2937, 2939, 2941, 2943, 2945, 2947, 2949, 2951, 2953, 2955, 2957, 2959, 2961, 2963, 2965, 2967, 2969, 2971, 2973, 2975, 2977, 2979, 2981, 2983, 2985, 2987, 2989, 2991, 2993, 2995, 2997, 2999, 3001, 3003, 3005, 3007, 3009, 3011, 3013, 3015, 3017, 3019, 3021, 3023, 3025, 3027, 3029, 3031, 3033, 3035, 3037, 3039, 3041, 3043, 3045, 3047, 3049, 3051, 3053, 3055, 3057, 3059, 3061, 3063, 3065, 3067, 3069, 3071, 3073, 3075, 3077, 3079, 3081, 3083, 3085, 3087, 3089, 3091, 3093, 3095, 3097, 3099, 3101, 3103, 3105, 3107, 3109, 3111, 3113, 3115, 3117, 3119, 3121, 3123, 3125, 3127, 3129, 3131, 3133, 3135, 3137, 3139, 3141, 3143, 3145, 3147, 3149, 3151, 3153, 3155, 3157, 3159, 3161, 3163, 3165, 3167, 3169, 3171, 3173, 3175, 3177, 3179, 3181, 3183, 3185, 3187, 3189, 3191, 3193, 3195, 3197, 3199, 3201, 3203, 3205, 3207, 3209, 3211, 3213, 3215, 3217, 3219, 3221, 3223, 3225, 3227, 3229, 3231, 3233, 3235, 3237, 3239, 3241, 3243, 3245, 3247, 3249, 3251, 3253, 3255, 3257, 3259, 3261, 3263, 3265, 3267, 3269, 3271, 3273, 3275, 3277, 3279, 3281, 3283, 3285, 3287, 3289, 3291, 3293, 3295, 3297, 3299, 3301, 3303, 3305, 3307, 3309, 3311, 3313, 3315, 3317, 3319, 3321, 3323, 3325, 3327, 3329, 3331, 3333, 3335, 3337, 3339, 3341, 3343, 3345, 3347, 3349, 3351, 3353, 3355, 3357, 3359, 3361, 3363, 3365, 3367, 3369, 3371, 3373, 3375, 3377, 3379, 3381, 3383, 3385, 3387, 3389, 3391, 3393, 3395, 3397, 3399, 3401, 3403, 3405, 3407, 3409, 3411, 3413, 3415, 3417, 3419, 3421, 3423, 3425, 3427, 3429, 3431, 3433, 3435, 3437, 3439, 3441, 3443, 3445, 3447, 3449, 3451, 3453, 3455, 3457, 3459, 3461, 3463, 3465, 3467, 3469, 3471, 3473, 3475, 3477, 3479, 3481, 3483, 3485, 3487, 3489, 3491, 3493, 3495, 3497, 3499, 3501, 3503, 3505, 3507, 3509, 3511, 3513, 3515, 3517, 3519, 3521, 3523, 3525, 3527, 3529, 3531, 3533, 3535, 3537, 3539, 3541, 3543, 3545, 3547, 3549, 3551, 3553, 3555, 3557, 3559, 3561, 3563, 3565, 3567, 3569, 3571, 3573, 3575, 3577, 3579, 3581, 3583, 3585, 3587, 3589, 3591, 3593, 3595, 3597, 3599, 3601, 3603, 3605, 3607, 3609, 3611, 3613, 3615, 3617, 3619, 3621, 3623, 3625, 3627, 3629, 3631, 3633, 3635, 3637, 3639, 3641, 3643, 3645, 3647, 3649, 3651, 3653, 3655, 3657, 3659, 3661, 3663, 3665, 3667, 3669, 3671, 3673, 3675, 3677, 3679, 3681, 3683, 3685, 3687, 3689, 3691, 3693, 3695, 3697, 3699, 3701, 3703, 3705, 3707, 3709, 3711, 3713, 3715, 3717, 3719, 3721, 3723, 3725, 3727, 3729, 3731, 3733, 3735, 3737, 3739, 3741, 3743, 3745, 3747, 3749, 3751, 3753, 3755, 3757, 3759, 3761, 3763, 3765, 3767, 3769, 3771, 3773, 3775, 3777, 3779, 3781, 3783, 3785, 3787, 3789, 3791, 3793, 3795, 3797, 3799, 3801, 3803, 3805, 3807, 3809, 3811, 3813, 3815, 3817, 3819, 3821, 3823, 3825, 3827, 3829, 3831, 3833, 3835, 3837, 3839, 3841, 3843, 3845, 3847, 3849, 3851, 3853, 3855, 3857, 3859, 3861, 3863, 3865, 3867, 3869, 3871, 3873, 3875, 3877, 3879, 3881, 3883, 3885, 3887, 3889, 3891, 3893, 3895, 3897, 3899, 3901, 3903, 3905, 3907, 3909, 3911, 3913, 3915, 3917, 3919, 3921, 3923, 3925, 3927, 3929, 3931, 3933, 3935, 3937, 3939, 3941, 3943, 3945, 3947, 3949, 3951, 3953, 3955, 3957, 3959

Railway Commission Ruling Is Cause Of Worry To American Railway Interests

The Washington Post, under the caption "Canada's Unkind Cut," says: "The Canadian railway commission has apparently put a crimp into the transportation interest of the Great Lakes and the American railroads that join the lakes to the seaboard. Incidentally it would appear that the order fixing freight rates from the great grain fields of the Canadian northwest to Montreal is likely to result in diverting 25,000,000 bushels of export grain from American seaports to the ships that make Montreal, instead of New York, Boston and Baltimore, their western terminal."

"The Canadian commission ordered a reduction of the rate on grain from 34.5 cents per hundred pounds to 18.5 cents from the head of the lakes to Montreal and the Canadian seaboard. This reduction in the established rates of nearly 50 per cent. naturally caused consternation in American shipping circles and some means of retaliating is being sought."

Not only will this reduction materially affect the earnings of the ships and railroads so largely interested in the commerce of the whole lake region, but it may have a decided effect upon the milling interests of Minnesota. It has been the custom for many years for the people of Manitoba to ship their hard wheat to Minnesota and Duluth to be ground into flour for export. This grain is admitted free of duty under bond, and the flour has been transported over railroads or by water through Buffalo to Atlantic ports for export.

"Should the order of the Canadian commission result in diverting Canadian wheat and other grains through the elevators at Montreal instead of Buffalo, the effect on the earnings of the transportation lines on this side of the border will be very damaging. The grain interests will endeavor to induce American railroads to appeal to the interstate commerce commission for permission to meet the Canadian cut."

Underground River

Found In France

Is Of Considerable Length and Water Is Very Cold

An underground river a mile long leading to a subterranean lake in an immense cavern, the roof of which glistens with stalactites like huge diamond needles, has been discovered near the village of Izaut-de-Hotel, in the Haute Garonne Department in the south of France.

The village derives its water supply from a copious spring issuing from a cleft in the mountain at an altitude of 2,500 feet, near which are a number of natural wells, one of which has been used from time immemorial for disposing of the carcasses of dead animals.

In order to determine whether the well into which the dead cattle are thrown contaminated the village water supply, a local official, M. Norbert Castellet, entered the cleft of the rock in a portable canoe, with an electric lamp worked by a pocket battery fixed to his forehead.

He found himself travelling up an underground river, apparently of considerable depth, the waters of which were icy cold. From time to time the river narrowed and then widened out again into great underground halls, culminating a mile from the outlet in a large subterranean lake which has not yet been fully explored.

Another Use For Hot Air

New buildings in Germany are made suitable for occupancy within a few days after completion by means of hot air forced into them through compressors, says Popular Mechanics magazine. The plan is said to be especially useful for concrete houses, which can be made ready for rental in from two to four days by this method.

A recent survey of the United States Public Health Service shows that colds cause a time loss of 1.4 days a year for every man worker and 2.1 for every woman worker.

Blinks—I hate people who pick up little remarks and get sore.

Jinks—Yes, and I also hate those that pick up little tacks and get flat.

There were no death sentences in Scotland last year, although there was a considerable increase in crimes against property with violence.

Some men are extremely boastful, but we have yet to find one who brags that he can pick out a good cantaloupe every time.

Tariff On Hay

Has Become Subject Of Controversy In The United States

Canadian hay has suddenly become the subject of controversy in tariff circles of the United States. The tariff commission, which advises President Coolidge on proposals for tariff changes under the flexible provision of the Customs act, finds itself considering application from dairy interests of the New England states for a decrease in tariff on hay from Canada and at the same time unnamed parties in New York state are applying, through Congressman John Taber, for an increase in the duty on Canadian hay.

The first interests contend that they must have clover hay of the type imported from Canada for the feeding of herds, while New York growers complain that their product is losing out to imported hay and should be protected against the product of a foreign country where the cost of production is less. The situation is further complicated by the fact that the hay situation enters into an investigation now under way by the tariff commission into the cost of production of milk and cream in the two countries. Pending settlement of this phase of the question, the tariff commission is reluctant to recognize the more recent applications from hay users, and will not make any definite announcement at present.

The controversy is not likely to be settled for several months.

Latest Use For X-Rays

Detects Solid Materials In Rags Used For Making Paper

New uses are always being found for X-Rays. One of the latest is that of searching for buttons and other solid materials in piles of rags that are to be used for paper-making.

Serious damage to the pulping machine is likely if buttons, hooks, eyes, and such like are not removed from the pulp. To prevent this, endless bands convey the rags over an X-ray tube, where the solid materials are detected by fluorescent screens in the X-ray outfit.

Winnipeg Newspaper Union

1649

An Attractive New Frock

This charming frock is shown in View A fashioned of lace and satin, and in View B of figured material. The skirt and bodice are gathered to a belt, and there is a soft bow arranged at the top of the front panel. Bands of ribbon form an effective trimming on the bodice and long gathered sleeves, and is also used for the binding on the V neck and top of the vestee. No. 1649 is in sizes 34, 36, 38, 40 and 42 inches bust. View A, size 36, requires 2 1/2 yards 39-inch lace, and 1 1/2 yards 39-inch material. View B, size 36, requires 2 1/2 yards 39-inch, or 3 yards 54-inch material; 5 1/2 yards 2-inch ribbon. Price 20 cents the pattern.

World's Record In Egg Laying

White Leghorn Belonging To University Of British Columbia Is World Beater

The Superintendent of the Dominion Experimental Farm at Agassiz, B.C., Mr. E. H. Hicks, B.S.A., claims several world's records for egg laying at the farm. In order that these claims may be exactly understood the official report for the year 1926 is here quoted almost verbatim. After saying that previously 215 eggs per bird was regarded as high as could reasonably be looked for, the report continues: "The contest just completed finished up with an average of 231 eggs per bird, that is 106,226 eggs from 460 birds, which is considered to be a world's record. Apart from this several other world's records were made both as to pen production (ten birds to a pen) and from individual birds. The pen that won the contest with a score of 3,057.5 points established a world's record. The pen which scored highest for egg production with a total of 2,946 eggs or an average of 294 eggs per bird made a world's record for number of eggs. The Barred Rock that finished in the lead with a total of 409 points with 326 eggs also made a world's record for points, all breeds. The outstanding record of all, however, goes to a S.C. White Leghorn belonging to the University of British Columbia, namely 351 eggs in 364 days."

Points are awarded on the following basis: one point for each egg averaging 24 ounces to the dozen; one-tenth of a point deducted for each ounce that averages less than 24 to the dozen; bonus of one-tenth of a point for each ounce of eggs that average more than 24 to the dozen. Eggs averaging more than 27 ounces to the dozen are regarded as just averaging that number. Eggs averaging less than 20 ounces to the dozen, exceedingly badly shaped eggs, and soft-shell eggs are not credited.

Walnut Becomes Expensive

In an article on Sir William Mucklock's black walnut plantation, estimated at \$2,000,000 when it matures a Toronto writer says: "One well-grown walnut will yield about 300 feet and at a fair estimate is worth \$100. Many old log barns and rail fences in Ontario are being torn down for the small amount of walnut in them. In time the price will be undoubtedly doubled or trebled."

Many a man who thinks that he is conservative is in reality dead slow.

One doesn't need to be an aviator to know the meaning of air pockets. Just ask the returning vacationist.

Experts Seek Solution Of Farm Problems

Eradication Of Crop Pests Discussed At Saskatoon Conference

Seeking more effective method of control and eradication of farm crop pests of Western Canada and the central United States, entomologists from Saskatchewan, Alberta and Manitoba, and from Montana and North Dakota, met in Saskatoon in the annual conference of the International Great Plains Crop Pest Committee. From their deliberations it is hoped that great benefits will result to the farmers in the check of the pests which annually make inroads on the growing crops.

The organization was first started in 1920 and the meetings are held each year because of the fact that the pest problems of the Canadian prairies and the wheat lands of the United States are practically the same. Discussion of the common problems and the outlining of the preventive systems used in the various sections and toward the solution of one of the farmers' biggest problems.

No definite announcement is being made now as to the results of the deliberations, but any new schemes decided upon will be given to the grain growers in bulletins at a later date. H. G. Crawford, of Ottawa, chief of the division of field crops and garden insects of the Dominion Department of Agriculture, attended the Saskatoon meeting.

Marking Highways In Saskatchewan

Men Working From Boundaries To Centre Of Province

Two parties of men, working from the Manitoba and Alberta boundaries toward the centre of the province, have been assigned by the Provincial Department of Highways to the task of blazing 3,000 miles of provincial highways with new signs. The work will be carried on as long as possible this season, and it is hoped that, next summer will see its completion. Each highway will be given a number, which will appear on the signs now being put up, and also in roadmaps. The road signs are designed for visibility, and will consist of a target on a steel standard bearing in addition to the geographical data the abbreviation "Sask.", and the Provincial coat of arms. It is understood that Manitoba has undertaken a similar plan, and that Alberta will follow shortly.

When a new girl comes to a small town all the boys sit up and take notice.

Canada Is Building Up And Developing Trade Into Remote Corners of the Earth

Feeding Market Hogs

Feeding Has A Distinct Influence On The Quality Of Finished Market Animal

A large proportion of pigs marketed in one or more respects to comply with the standard required by either the pork butcher or the bacon curer, a frequent fault being over-fatness. Often this is due to unsuitable breeds and breeding, but live stock men all admit that feeding, whether it be bad or good has a very distinct influence on the quality of the finished market animal. In fact some feeders go so far as to claim that proper feeding methods are of equal importance to correct breeding. In order that hog raisers may have easily available information on proper methods of feeding the Dominion Animal Husbandman has issued a pamphlet on "Breeding and Feeding the Market Hog," which may be obtained from the Publications Branch, Department of Agriculture, Ottawa. Ill-balanced rations, injurious substitutes, deficient rations, over or under feeding, lack of intelligent understanding of nutritional requirements generally, all exert a particularly powerful influence during the early growing period as affecting later development. For instance the demand of the bacon curer is for small well finished, fine-boned carcasses, with a proportion of lean and a low proportion of offal. To obtain these the feeding must be correctly carried out all through the development of the animal. The use of inferior feeding stuffs, or the misuse of suitable foods, will cause otherwise excellent carcasses to turn out practically worthless or to be reduced seriously in value.

When Pockets Are Dangerous

Unless Kept Clean Will Collect Germs Says Bacteriologist

Are you one of the many thousands of people who catch cold after cold, or who are hardly ever free from troublesome catarrh, or some similar ailment?

If so, you had better empty your pockets, brush the linings thoroughly, and then have them washed with a good disinfectant.

A bacteriologist has been examining the fluff, dust, dirt, and so on, contained in a man's pockets, and he identified seventeen varieties of germs and estimated the total number at 8,000,000.

In the fine dust was the deadly poison veridigris, rubbed from copper coins by friction; phosphorus from matches; nicotine in powder, and other harmful substances. Of the germs that produce catarrh there were thousands!

Whenever a handkerchief picked up a few of these germs they were inhaled, and if the conditions were favorable to them, the owner of the handkerchief got another attack of catarrh.

That the comparatively heavy veridigris remained in the bottom of the lining was a blessing. Wiped on to the lips the result would have been serious.

When we wonder where we caught this or that ailment we need not in many cases go farther than our own pockets. Fluff—especially if it becomes damp through rain—is a rearing ground for germs.

The moral is obvious—keep your pockets clean.

Many Prizes Offered

Prizes for superlative canine characteristics were awarded at the Otterclaw Dog Show, at London, as follows:

- Best tall waggoner—Spaniel.
- Most sagacious trickster—Terrier.
- Fattest—Dalmatian.
- Thinnest—Pekingese.
- Noisiest—Airedale.
- Ugliest—Mongrel.
- Prettiest—Bulldog.
- Largest—Great Dane.
- Smallest—Terrier puppy.
- Saddest—A twelve year-old Sealyham.

Noise Making Ears Larger

If you have large ears and they are getting bigger, this may be the cause. Dr. Pfeffer, Vienna ear specialist, says the noise and clamor of modern city life are producing a race of elephant-eared men and women and says he can confirm this by measurements of his patients' ears for the last 30 years. If city noises are the cause why should ears grow larger when what humanity needs is something that will muffle sound?

Some men actually believe that pointers will worth considering.

So vast and interlocked are the ramifications of world trade that the dislocation precipitated by the great war affected every civilized people, even the more primitive races could not escape its repercussions. Volumes would be needed to itemize the processes required to feed, clothe, amuse and house the human denizens of this modern age. Trade is ubiquitous in scope and world-wide in its ramifications. Canada is developing her share, as trade figures will show, but few people have any intimate idea how difficult it is to build up a substantial foreign business.

The name of "New Zealand" displayed against a fern leaf is the national brand used to identify New Zealand's excellent butter and cheese in the export trade. Butter and cheese bearing a mark sufficiently like New Zealand's to deceive the careless recently came on the market. They were shipped from the Argentine, and New Zealand is discussing the subject with the government of the South American republic.

Canadian hops go to England and are to be sent to the Australian market this season. British Columbia ships canned fish to the remotest corners of the earth; California has a similar wide distribution of preserved fruit. Forty Jersey heifers were shipped from Vancouver to Shanghai recently; The Guernsey bull, Echo of Myrtle Place, took first prize at the annual show on the Isle of Guernsey and promptly was bought by a Detroit man. Suits of clothing made in New York state are sold in England.

A refrigeration service carries fruits and vegetables from southwestern America; Brazil bought 60,000 tons of potatoes from British Columbia in 1926. The same province is sending apples to South Africa, China, Sweden, Norway, Germany and Denmark, Great Britain and the United States. New York and Chicago are steady customers. South Africa and the west coast of South America compete in New York fruit market at certain seasons.

In normal times of peace, there is hardly such a thing as a nation being self-contained. One nation depends upon another, and if the world is undisturbed for fifty or more years by conflict, this interdependence will increase. Canada, in wheat alone, not to speak of several essential minerals, is contributing much to the needs of the world in most substantial measure. By this token, we are far from a backward people.

Meaning Has Changed

Word "Match" Came From Greek For Lamp Wick

Originally, the word came from the Greek for a wick of a lamp or candle, but in the process of centuries it has changed its meaning several times. Thus we had the match of the old match-lock gun, a sort of long wick arrangement along which a spark gradually crept.

Our very earliest pocket matches were really a glorification of wicks, being little flat shavings of wood which were "fired" by the aid of flint and steel and tinder. The next stage was when we began to dip these matches in chemicals, and so got the friction match. The friction match soon put out of the field all the older clumsy and complicated ways of getting a light, and soon we dropped the "friction" from the term and got our modern "match."

Canadian Wool Clip

Canadian Co-Operative Wool Growers To Handle About 3,500,000 Pounds Of Wool

About 3,500,000 pounds of wool will, it is estimated, be handled this year by the Canadian Co-Operative Growers. Of this total 1,250,000 pounds have been received at the western warehouse from the range territory of Southern Alberta and Saskatchewan and another million pounds has also been delivered from smaller flocks throughout Western Canada.

The market for wool is reported active and firm with prices to farmers now running around 25 cents per pound. The larger part of the wool clip in Canada is handled by the Canadian Co-Operative Wool Growers.

Smallest Cafe Closed

The smallest restaurant in the world has closed, a financial failure after years of success. It operated in a room three feet by eight, and accommodated only one customer at a time.

No really good grape-phonograph is ashamed of its own record.

Noted Singer Was Abbotsford Resident

Many Abbotsford people will re-
collect Isabelle Giroday, who as one of a
large French family, lived in the
former Peck residence just east of town
previous to the war, and now being
lauded in Coast papers as a singer of
international fame. Miss Isabelle
Burnada, as she is professionally known
was a guest at the home of Mrs. H. J.
Fraser recently, where she enjoyed
meeting many who knew her years ago
as a delicate little crippled girl, with
scant hopes for the brilliant future she
has since attained.

Isabelle came here from the Isle of
Mauritius, a French possession, with
her parents in 1909. The poultry-
raising business in which her father
entered into was not successful, and
the family moved to Vancouver. Her
father, who is a member of old French
nobility, is now a timber inspector, re-
siding in Vancouver. City papers re-
port Miss Burnada's career in detail—
particularly interesting reading even to
those not acquainted with her.

Mr. DeCannonville, an uncle, was also
well known in Abbotsford. Miss Burn-
ada was recognized early for her won-
derful pianoforte technique, but the
beauty of her voice was not appreciat-
ed until she sang before a group of
Vancouver music-lovers several years
ago, who arranged with Mr. P. Burns
for her training.

Arrested For Hunting Without Guide

Two deer hunters, Archie Johnson
and George Bishop, of Sumas, ran foul
of Game Warden Stewart at Vedder
Mountain last week, who arrested the
pair for hunting big game without a
guide, a contravention of the Game
Act as it pertains to Americans. The
rifles of the two nimrods were confis-
cated, and they returned to their native
soil to await the disposition of their
case by Victoria authorities. In the
meantime, learning that the two Amer-
icans had been informed from what
they considered an authoritative source,
that no guide was required by Canadian
law, the Sumas Game Protective As-
sociation officers intervened, and se-
cured return to the rifles and with-
drawal of the charges.

Council Meeting At Kilgard On Oct. 21

An open meeting of Sumas munici-
pal council is to be held at Kilgard on
Friday, October 21 at 8 p.m., to
enable a number of householders con-
veniently register on the voters' list,
and to discuss municipal affairs.

Native Sons Dance Shows Nice Profit

Sumas Prairie Assembly of Native
Sons gave their first dance of the sea-
son in Jubilee Hall last Friday, and
although the attendance was not ex-
ceptionally large, a most sociable spirit
prevailed, and everybody present en-
joyed themselves. After paying ex-
penses the Assembly net a profit of
about \$50, which will be devoted to
purchase of shares in the hall and re-
creation grounds project. Dr. Wood's
special 7-piece orchestra provided first
class music. Refreshments were pre-
pared by members of the Canadian
Daughters League.

Game Association Names Wardens

At an executive meeting of Sumas
Game Protective Association held on
Monday it was decided to post large
notices at four or five prominent points
in the district, giving the information
that Sumas was a "protected" game
area.

A committee was named to canvass
farmers not in the association, or not
inclined to hunting themselves, to have
their property patrolled by the asso-
ciation's wardens. Game wardens were
named as follows: E. Marcy, W. G.
Fadden, A. H. Harrop, L. O. Lamson,
A. Munro, J. Frith, J. Burton, W.
Crossley and J. Loney.

M. C. Switzer has been appointed

EXPRESS PARCELS CARRIED

Refugee Girl Wins Medal In Matsqui
A pleasing little ceremony occurred
at Dennison High School on Wednes-
day of last week, when Miss Irene Sa-
vitsky, 12-year-old entrance pupil, was
presented with a bronze medal, won
by her in the Confederation Jubilee
Canadian History Competition, Trust-
tee Tracey of the School Board, making
the presentation.

Each member of the School Board
attended, and spoke a few appropriate
words of commendation, and School In-
spector McKenzie emphasized the fact
that Irene had only lived in this coun-
try for two years, a refugee from Rus-
sia. In his inspectorate of nearly
two hundred school rooms, only nine of
the medals were awarded.

The Inspector also mentioned Donald
Duncan, late of Jubilee School, and
now attending Mission High School,
who won a silver medal in the same
competition.

Tribute was paid to the teachers, Miss
Forrester of Mt. Lehman, and Miss C.
Frederickson of Jubilee, who had as-
sisted their pupils to success, the In-
spector ending his address with a few
words of encouragement to the whole
attending class of 1927.

Mrs. Savitsky expressed her ap-
preciation of the honor won by her
daughter, and tendered thanks to the
School Board and teachers.

Mr. A. Knox of Delair road brought
to the News office some splendid bun-
ches of Virginian Red and Concord
grapes, picked from his vines yesterday.
Grapes appear to do well on southern-
exposed hillsides.

Prince Believes "Shew" is Correct

Take out your dictionary and see if this is right or wrong. The photo-
graph shows (or shows) an entrance leading up to a train at the
Union Station at Toronto and above the gateway the sign: "Shew
Tickets Here."

This is proving quite a curiosity to the passengers using that station
and providing them plenty to think about while on their train journey. It
is quite noticeable in this modern age, especially after "show" is used
generally. However, the Canadian Pacific Railway is a stickler for cor-
rectness, so there it is.

The new Union Station was officially opened by His Royal Highness
the Prince of Wales, during his visit to Canada on August 8th, and His
two, three and four being issued to his brother, Premier Baldwin and Mrs.
Baldwin, respectively. The Prince called attention to the sign above his
head and agreed with the officials of the C. P. R. upon its correctness.

A meeting to discuss holding of a boxing tournament in Abbotsford is
called for tomorrow night in Atangard
hotel.

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land" copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land".

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for high-class (arable) land is \$5 per acre, and second class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers up to ten head.

"For Your Land's Sake, Use Lime."

Facts about ground lime told briefly. Over one-half of the entire United States needs lime, according to Official Reports.

Most of our coast soils needs lime. Clover will not thrive on acid soil. Where clover fails to thrive the soil should be tested for acidity.

If the soil is acid at all a ton or more per acre of ground limestone should be applied.

Ground-limestone may be applied at any time.

Lime will often produce immediate increases in grain and other crops, but the greatest benefit derived from it comes through increasing clover and other legumes in rotation.

Following a good clover crop, it is possible to grow good grain or other crops.

Do not put off liming your soil if it is sour, under the pretense that you are "not able". The quicker you use lime the quicker you will be growing good crops.

Each man who delays liming his soil, when it needs lime, is wasting a part of his life.

Do you buy high priced seed and sow them on soil that needs lime? A lot of people are doing that very thing.

No man ever went broke in producing high yields per acre, but thousands have through producing low yields per acre. Big yields per acre demand lime.

Your District Agriculturist, Department of Agriculture, Victoria or Ottawa, or University will make a test for you, if desired, but the best way to know is to lime a strip of land and note the effect on your crops. For any further particulars write to us, or ask your County Agent, or any other Agricultural Authority.

HUNTINGDON

Proficiency list, Huntingdon school, for month of September:

Div. 1.—Grade 8: Laurence Caul, Lloyd Caul. Gr. 7: Margaret Bates; Eileen Bates. Grade 6: Angus Fraser Eileen Davis. Gr. 5: Lorna Bates, Grace Fraser.

Div. 2.—Gr. 4: Stuart McGillivray, Billy Brown. Gr. 3A: Jimmie McConnell, Allan Knox; 3B: Adele Tessaro, Kenneth McLean; 2A: Nora Bates, Morvin Curtis; 2B: Marvin McLean, Sadie Watson; Gr. 1A: Daphne Wilson, Margaret Salmon.

L. C. Waddington, principal Miss M. McInnis, (Gr. II.)

A California auto party passed Huntingdon customs last week with the heads of a cariboo and a big moose, which they secured near McConnell lake, in the Cariboo. Their moose weighed 1,200 pounds, they said, and the cariboo 400 pounds. Four bears also fell to the hunters' rifles, they reported.

Misses Elsie and Eleanor Salisbury of Kilgord were guests of their aunt, Mrs. A. Smythe last week-end.

Mr. T. Schluter of Seattle recently visited his sister, Mrs. Worstman and Mrs. Caul at Huntingdon.

New Schoolhouse At Kilgord Opened

The recently constructed Kilgord school was opened last week, with Miss Kelleher as teacher. About 40 children of school age are resident at Kilgord.

Fine Opportunity for Flower Show Here

A meeting of local horticulturalists is shortly to be called to arrange a flower show in Abbotsford, which, if successful, will become an annual event.

Many expert floriculturists are resident in this district, and the time is ripe when some convenient opportunity was provided for the exclusive display of the blossoms of their beautiful gardens.

Given sufficient support, a magnificent annual show might be held here, becoming at once a credit to the locality and both profitable and pleasurable to flower-lovers.

One of the most beautiful hedges of dahlias in the district, remarkable because of their magnificent bloom at this season, is to be seen in front of the home of Mr. and Mrs. Maurice Gilmore. Another splendid garden is that of Mr. and Mrs. Fooks. While Mr. J. Rowley's is not so accessible to view, one may suppose its beauty by the gorgeous blossoms he brings to town frequently.

Miss Chapman of Clayburn, and formerly of the Hotel Cecil, London, exponent of modern ballroom dancing, opened her dancing establishment in Abbotsford on Monday, with a substantial pupil enrollment. She is organizing a class for children, and will give instruction on Mondays, Wednesdays and Thursdays from 3 to 6 p.m.

A.-S.-M. Jubilee Recreation Association, Ltd.

Notice to the Public

The directors of the above Association, being now in a position to gauge future revenue and expense, and in accordance with a resolution passed at a General Meeting held September 1st, last, wish to notify residents of Abbotsford, Sumas and Matsqui, that a new issue of 150 shares at par value of \$10. per share is now made. Of this number about 50 have already been applied for. Applications must be in the hands of the secretary on or before Oct. 31st.

The confidence of the public in the Association is shown by the fact that of all previous allotments, only 16 shares have not been taken.

It is intended to declare a dividend of 10% at the end of the first fiscal year, and owing to the sound business policy being pursued, the value of shares will undoubtedly increase.

This company is proving that an organization, primarily for the benefit of the community, can at the same time be a financial success.

Applications will be accepted for allotments of from 1 to 20 shares.

By proclamation made in the Canada Gazette, Monday, November 7th will be observed throughout the country as Armistice Day and Thanksgiving, following the usual practice of making Thanksgiving Day fall within the week of November 11th, the anniversary of the signing of the armistice.

Local Masons are making their annual fraternal visit to United Lodge at Sedro Woolley tomorrow.

UNRESERVED AUCTION SALE

of 17 Head of High-Grade Holstein and Jersey Dairy Cattle, Furniture and Farm Machinery

Under instructions from MARTIN ELLESON, I will sell by public auction on his premises at GIFFORD STATION on the B.C.E. Railway, on SATURDAY, OCTOBER 15, 1927 commencing at 1:30 sharp, the following:

CATTLE—8 head of Grade Holsteins and Jerseys from 3 to 6 years of age, of which four will freshen before date of sale; 1 due in December; 1 due in February; and 2 in March. Two 2-year olds and two yearlings. 1 grade Holstein Bull, 2 years old.

This is a clean, high-testing herd of cows, always received a clean sheet from Govt. T.B. testers and never lost a calf.

Other cattle not yet listed will be sold on this date; open for additional entries.

Household Furniture—1 Oak Sideboard with plate-glass mirror; 1 wood Heater, 1 Coal Heater, 1 Bicycle, Etc.

Farm Machinery—1 Steel Harrow; 1 14-in. Stubble Plow, &c.

TERMS CASH unless otherwise arranged before sale.

H. G. MYHRE, Auctioneer

DR. J. F. WOOD, Clerk. Phone Ab. 108L

Messrs. Kendall & Barr's auditors are in the district attending to preliminary work connected with the annual municipal audits.

Mr. F. G. Cook has gone to Vanderhoof, taking the position of principal of the school there.

New Municipal Road Will Shorten Distance Between Abbotsford and Sumas Reclaimed Area

At Saturday's meeting of Sumas municipal council Councillor Starr and Clerk E. B. McPhail were named to appear before the Board of Railway Commissioners at a sitting of that body to be held in Vancouver on Wednesday, October 19, and substantiate a written protest lodged by Sumas Municipality against the proposed closing of the Abbotsford-Kilgord branch of the G. N. Railway. The Municipality is preparing statistical and other evidence in support of its protest to the Board.

Gazetting of an extension of the Wells Line road from its intersection with the Straiton road east as far as C. Everett's property was decided upon. The Sumas Dyking Commissioners are surveying a ditch to drain flood waters from Marshall creek into the Sumas river, and the Council plans to utilise the excavated ditch material for a road bed, routing the road parallel to the ditch. A direct thoroughfare will thus be provided from the intersection of Wells Line road and the Interprovincial highway, one mile north of Evan Thomas (becoming known to motorists as "Suicide Corner") direct through to Whatcom road at a point between the Nelles and Starr properties, and on to the Campbell road.

Accounts were passed for payment as follows:

Clark and Stuart Co. \$7.60; B. C. Electric Ry. Co. \$1.00; J. W. Winslow \$36. Thos. F. York \$25.00; E. B. McPhail \$108.20; A. S. M. News \$17.74; M. S. A. Hospital \$57.40; G. A. Rosie \$4.00; M. J. Nelles \$155.40; Jos. Watson \$3; W. C. Blinch \$1; A. Harrop \$3; R. Des-Mazes \$7.40; E. Mercey \$11.07; H. A. Corbet \$225.21; F. York \$36.80; L. V. Kenny \$7.20; T. McMaister \$14.40; A. Kask \$3.60; J. Cadman \$3.60; H. R. Harris \$52; A. McCallum \$9; J. White \$18; E. Chudley \$43.20; S. Austin \$62; W. A. Moore \$40; W. Harris \$80.55; W. Crossley \$303.70; Sumas-Abb. Agricultural Assn \$200; J. Watson \$12.57. School accounts: teachers' salaries \$754.85; transportation: W. C. Blinch \$129; G. Gough \$107; G. Grant \$15; J. A. McDonald (contract) \$1000; misc. 2nd prizes R. Peyton, E. Lamson \$5. Janitor work: W. Waterston \$25; W. C. Blinch \$25; G. Hardy \$4; N. McPhee \$4. T. B. Straiton \$10.40. Supplies—Clark & Stewart \$372.26; medical health ins. T. A. Swift, M.D., \$103.50; sites & bldg. rep. \$21.75; advertising, A. S. M. News \$2.64; Van. Province \$12.60. Insurance B.C. Mutual \$16; Sec. salary \$20; ex. and stationery \$4.57—total \$2670.93.

The local Board of Trade should also arrange to plead a case against the threatened closing the Kilgord branch before the Railway Board this month.

Black Bear Shot Near Whatcom Road

Some excitement prevailed south of Whatcom road station on Sunday last, when a black bear, weighing well over 200 pounds, was shot by Al Evans near the Peyton farm. The animal was hunted out of hiding with the aid of dogs, and was bagged near the border, which it undoubtedly intended crossing in the knowledge that its hide was safe in Washington by virtue of U.S. game laws.

WORLD HAPPENINGS
BRIEFLY TOLD

Seeing New York by air is cheaper than by taxi. The same route covered by an airplane at a cost of \$5 will run up a taxi bill of \$6.10.

Wayne R. Wheeler, general counsel of the anti-saloon league of America, died at Battle Creek sanitarium recently, due to a heart attack.

Immigration to Canada for the month of July, 1927, totalled 12,288, made up of 5,432 from the British Isles, 2,101 from the United States and 5,155 from other countries.

Ernst Vierkotter, who won the Canadian National Exhibition marathon swim is now planning a vaudeville tour, after which he will likely enter motion pictures.

The purchase of 16 quarter sections of land, involving \$56,325, was the result of the visit of a party of land-seekers from Nebraska and Kansas to the Eston, Tyner Valley and Snipe Lake districts in Saskatchewan recently.

Communal rioting at Nagpur, capital of the central provinces, British India, resulting in the death of 15 persons, is reported by the Bombay correspondent of The Exchange Telegraph. Many families are leaving the city, fearing renewal of the troubles.

Commander Richard E. Byrd states that he has planned to leave New York next August on his South Pole expedition and that Floyd Bennett, who accompanied him on his flight to the North Pole, would be second in command of the party.

The Aero Club Committee, after hearing Jean Calizot, French aviator, who recently claimed to have made an ascent of 33,000 metres (42,651 feet), decided unanimously not to register his record of August 28, and to disqualify Calizot for life.

M. Briand, foreign minister, acting as president of the allied conference of ambassadors, has formally notified M. Stresemann, Germany, that the allied army of occupation in the Rhineland will be reduced from 70,000 to 60,000 men. Details of the reductions will be announced later.

The death occurred at Montreal after a long illness of Samuel L. Kydd, late editor of The Montreal Gazette. Mr. Kydd joined the staff of the paper in 1874 as a compositor and before being promoted to the position of editor, filled almost every kind of office in the newspaper. He retired from the editor's post last year owing to failing health.

Fatal Automobile

Accidents in Canada

Over Six Hundred Persons Were Killed During 1926

The Dominion Bureau of Statistics issued a special report on deaths from automobile accidents in the nine Provinces of Canada during the year 1926. Under this title are included the accidents in which automobiles are involved in collision with other vehicles, such as horse-drawn vehicles, street cars and trains.

In the nine provinces of Canada deaths from automobile accidents totalled 606 for the year 1926, made up as follows: Prince Edward Island, 1; Nova Scotia, 28; New Brunswick, 11; Quebec, 183; Ontario, 242; Manitoba, 27; Saskatchewan, 21; Alberta, 33; and British Columbia, 60. For the whole country the death rate from this cause was 6.5 per 100,000 of population, the individual provinces giving the following rates: Prince Edward Island, 1.1; Nova Scotia, 5.2; New Brunswick, 2.7; Quebec, 7.1; Ontario, 7.7; Manitoba, 4.2; Saskatchewan, 2.6; Alberta, 5.4; and British Columbia, 10.6.

In the nine provinces 445 of the deaths due to automobile accidents, or 73 per cent. of the total, were of males; deaths of females numbered 161, or 27 per cent. of the total. Children under 15 years of age contributed 186 deaths, or 31 per cent. of the total. In this age group there were 123 male and 63 female deaths, a proportion of 66 to 34 in the mortality of the two sexes.

Supports Bay Route

Entire support for the opening of the Hudson Bay route is given by the St. John Telegraph-Journal, one of the most influential newspapers of the Maritime provinces. "In fairness to the west," it says, "attempts to discredit the Bay route should cease. The plan is going through. It should be expedited. Let us hope that the results will fully meet the expectations of Manitoba and Saskatchewan. They have made a resolute fight for what they believed to be their due, and the rest of the country should wish them all good luck."

A fool and his father's money are easily separated.

New Wireless Stations

Prospect Of Improving Communication Between England and the Dominions

In addition to the beam wireless stations between England and the United States, which are almost ready to begin operations, new stations are being built for service between England and South Africa, and between Canada and Australia. The erection of the Indian beam stations completes the contract of the Marconi Company for wireless telegraph communication for the British Government, but by no means completes the immediate prospect of improving communication between England and the Dominions. Marconi officials say the experiments have proved the possibility of carrying on a wireless telephone conversation by means of the beam station simultaneously with the operation of high speed wireless telegraph service. They declare it will be possible before the end of next year for telephone subscribers in England to call up subscribers in any of the Dominions.

Canada's Mineral Resources

Sir Robert Horne Says Dominion Offers Great Field For Development

Sir Robert Horne, who has returned to England from Canada, where he attended the Mining and Metallurgical Congress of the British Empire, spoke with confidence of the future of the Dominion, especially in relation to her vast mineral resources. He said it was fitting that the metallurgical conference should meet in Canada because the mineral resources of Canada offered the greatest prospect of lucrative development of any in the world.

He continued: "They have only just scratched the mining areas of the Dominion up to now. There is a wave of enthusiasm for prospecting minerals in Canada which can be witnessed nowhere else."

Make Glue From Fish Scales

Fish glue prepared from scales by natives of the Congo region in Africa, is used for waterproofing their clothes as well as canoes. Popular Mechanics magazine says. The natives prepare the glue by mixing the scales of fish with twigs of various plants and boiling the mixture. The materials to be waterproofed are then dipped in this glue, and allowed to dry.

Goes To Argentina

W. J. JACKMAN

W. J. Jackman, of Clover Bar, Alberta, is now on his way to Buenos Ayres, Argentina, where he will make his headquarters as representative of the Canadian Wheat Pool for South America. Mr. Jackman has been on the board of directors of the Alberta Wheat Pool since the formation of that organization. He has resided in Alberta for over 22 years, coming in 1905 from the old country to farm. During his residence in Alberta he has always taken an active interest in farmers' organizations. His intimate knowledge of pool operations, his organizing and business ability and his knowledge of the Spanish language equip Mr. Jackman to be a splendid representative of the Canadian Pool in South America.

Heat Stored Underground

Man Should Bore Holes In Earth To Obtain Heat Supply

Man should bore holes to get heat from the interior of the earth instead of destroying a highly elaborate substance like coal, the British Association of Science was told by J. L. Hodgson, mechanical engineer.

He declared that heat stored in great spheres inside the earth is at least 30,000,000 times that available in the world's coal reserve. Hot rocks are found, he said, only about 33 miles below the surface and much nearer in volcanic areas.

The speaker said he advocated drilling shafts five miles apart. Workers boring the holes would be protected by heat proof suits, including liquid air containers to supply cool dry air.

The lecturer estimated that a cubic mile of hot rock would yield as much heat as burning 200,000,000 tons of coal.

"I only wish," said the teacher, exasperated by the naughtiness of one of her small pupils, "that I could be your mother for a week."

"All right," replied the youngster, coolly, "I'll speak to father about it."

Teacher (during history lesson): "What are the races that have dominated England since the invasion of the Romans?"

Small Boy: "The Derby and the Grand National, miss."

Diamonds can be identified by means of ultra-violet rays, under which the stones give off various colors which can be photographed.

"Oh, George, I've been stung by a bee. What shall I do."

"Put some ammonia on it."

"But it has flown away."—TIT-BITS.

Supplies Germs For
Experimental Purpose

Work At Lister Institute In London Is Interesting

There is always a steady demand, from laboratories and hospitals in all parts of the world, for germs—germs of every known description and variety, for experimental purposes.

Because of this, there is maintained at the Lister Institute, London, what is known as the National Collection of Type Cultures. Here a large and expert staff is kept busy feeding, raising and bottling bacteria.

When I called there recently—writes a London journalist in Pearson's Weekly—I found everyone bent intently over his delicate work. In cabinets along the walls were drawers upon drawers of tubes, all carefully tabbed and labelled, and sealed with wads of cotton wool.

The desks were fitted with Bunsen burners, stills, incubators and much other complicated apparatus, while in the centre, directing operations, stood the curator, Dr. R. St. John-Brooks.

Gradually, I was assailed by an uncanny feeling, as I realized that I was literally surrounded by millions of deadliest germs. And, a little later, I felt positively uneasy when Dr. Brooks held a tube under my nose and murmured nonchalantly: "Plague!"

Despite the coolness with which the experts handle the tubes of germs, however, they are by no means immune from infection; and I heard there is hardly a member of the staff who at some time or other has not had a serious bout of illness as a result of his fine work.

Some of the bacteria are "cranky" boarders, and for their special convenience a remarkable sort of kitchen is maintained.

The food is slightly different in many cases, and it is necessary to suit particular tastes. There is one variety of germ which is partial to nothing but beef tea, while toppers in the assembly turn part of their food into alcohol.

One sort lives in curdled milk, another ate the temperature of our blood—test it should catch cold and die!—while others cannot stand the air.

When, therefore, you remember that here are kept well over two thousand different sorts of bacteria, you can understand the vast amount of study and work that is involved. New varieties are continually being discovered and sent from all parts of the world to be added to the collection.

Not only are the organisms associated with diseases kept in stock, however. There are also tubes containing the little chaps carefully preserved from cheese, yeast and beer.

Other varieties associated with veterinary complaints are there too, beside those responsible for the damage to plant life. The collection is therefore at the disposal of students in widely varied spheres.

All the different strains are carefully listed in a catalogue; and millions of germs may be bought for a shilling! But it is necessary to explain to the buyer just what "medium" the organism is preserved in, and because of this a careful labelling system is used. Even the color of the cotton wool plugs has a certain significance.

Texas Has Rubber Tree

The only rubber tree in Texas is said to have been discovered on premises in Orange. The owner started to cut it down, but observed that it was of unusual type, and as a result some inquiries were made among the neighbors, who recalled the fact that a late owner of the place set out the rubber tree plant many years ago. The tree at the present time is a foot in diameter and in a thriving condition.

BRITISH SCHOOL BOYS VISIT CANADA

A party of British public school boys arrived in Canada on Saturday on the White Star Liner Albertic to make a tour of Montreal, Ottawa, Toronto, Algonquin Park and New York, to become better acquainted with Canadian boys and to understand the points of view of other nations by means of personal friendship. They are in charge of Rev. E. S. Fellowes-Farrow, M.A., F.R.G.S., of Cambridge University, third from the left in the front row, and Rev. Howard J. Rose, M.A., of Oxford University, on the extreme right.

Missing Aviators

Heavy Toll Of Life In Attempts To Span the Ocean

The 62-year-old Princess Anne Lowenstein-Wertheim is the second woman to disappear in an attempted transoceanic flight within a space of a little over two weeks. The first was Miss Mildred Doran, passenger in one of the planes participating in the Dole prize race from Oakland, Calif., to Hawaii.

A list of those fliers, other than the princess' companions, Captain Leslie Hamilton and Col. F. F. Minchin, who have disappeared at sea during the present flying season, follows: Capt. Charles Nungesser and Capt. Francis Coli left Le Bourget, May 8, for New York, in a flight for the Orteig prize, subsequently won by Col. Charles A. Lindbergh.

Capt. Saint-Roman and Commander Mouneyres left St. Louis, Senegal, May 5, for Pernambuco on a flight from France to Buenos Aires.

John A. Pedlar, of Flint, Mich., Lieut. V. R. Knoppe, navigator, and Miss Mildred Doran, Michigan school teacher, in the plane, Miss Doran, left Oakland, Aug. 16, for Hawaii in the Dole prize flight.

Jack Frost, of New York, and Gordon Scott, of Santa Monica, navigator, left Oakland, Aug. 16, for Hawaii in the Dole prize flight.

William P. Erwin, of Dallas, Texas, and Alvin H. Eichwaldt, left Oakland, Aug. 18, in search of missing competitors in Dole flight.

In addition a number of lives have been lost in preparations for or the actual starts of attempted transoceanic flights, notably Rene Fonck's disastrous take-off for France from Roosevelt Field, Long Island, and the start of the Dole aerial derby.

Invade Railroad Field

Number Of Women Employees Is Rapidly Increasing

The rapid advance that women have made numerically into railroad-riding during the past seven years is signalled in figures published in the Illinois Central Magazine. It reports that in the period under review the number of women employed on Class 1 steam railroads has increased more than 50 per cent. They now constitute one-third of the total staff. Their number in 1926 is given as 61,302.

Women were employed in almost every branch of railroad service last year, including two in train operation and 290 in shopwork, but the most numerous class was naturally that engaged in clerical and semi-clerical occupations, accounting for 51,127, the magazine reports. The next largest class in 1926 was that employed in cleaning, namely, 3,332; other large figures being "personal service" (waitresses, laundresses, etc.), 1,814, and telegraph and telephone operators, 1,427.

June Husband—"This steak tastes queer."

June Bride—"I can't understand it. I know I burned it a little, but I rubbed some vasoline on it right away."

Deaf worshippers in a Fulham church are now supplied with ear-phones so that they can hear and join in the service by means of a microphone.

London Loidy (ending argument with her more stylish opponent, in the park)—If yer skirt was as long as yer tongue, yer wouldn't be showin' yer knees.

The mortality of pigeons has been markedly reduced as a result of the introduction of clay targets. Why not clay pedestrians?

Musician—"Do you have a piano-forte?"

Mr. Dumme—"Yes. Forte dollars down and ten a month."

Canadian wheat is necessary to make palatable bread; Russian or Australian flour is not satisfactory.

When misfortune reaches a man's door she walks right in without knocking.

The only two places that contain everything are the world and a drug store.

Physician: "Take a deep breath and say four."

Able: "Three-ninety-eight."

Most men are willing to start something for the sake of an argument.

"It's the man with the smile that wins."

"Sure. That's why he smiles."

One way to keep your credit good is to pay your debts promptly.

One good excuse is better than a thousand poor ones.

New Narcotic Gas

Brings Deep Sleep and Has No After Effects

At the last meeting of the Medical Society in Berlin, Professor Unger described his experience with the new narcotic gas technically known as E. 107. Up to the present it has been customary to use either ether or chloroform to produce unconsciousness in surgical cases. Gauss recently introduced another means, a pure gas entitled naarklyen, made of purified acetylene, but for various reasons its use has not become general.

It was not any danger connected with the use of ether or chloroform that induced the attempt to produce E. 107, but the discomfort connected with their use. Many sick people are unpleasantly affected by ether or chloroform; the feel of the mask, the choking sensation, the knowledge that they are being put to sleep by force, combine to make them nervous. On awakening they are plagued with thirst.

E. 107 does not have to be breathed in. It is applied by means of a syringe and works from the intestines. In eight to fifteen minutes the patient falls into a natural sleep, lasting for several hours, and feels no after effects on awakening. It is a sleep of unconsciousness during which no pain can be felt and muscles are relaxed. The drug has no effect upon the heart, but sometimes affects the breathing.

Other physicians related their experiences to the society. About a thousand cases of operations with E. 107 were reported, but the medical profession does not consider it possible to form a definite opinion as to the value of the drug until far more evidence had been collected. For the present the use of E. 107 therefore has been confined to a few great surgical stations for continued experiments.

Advertising Helps Credit

Merchant Who Is Consistent Advertiser Can Usually Get Loan

There is one way by which a business man's credit is improved and that is by a policy of consistent advertising. Bank men believe in advertising for they know it pays. Their feeling, therefore, is that a merchant who is a good advertiser applies for a loan, that a reasonable amount of goods bought by him on credit is likely to be turned over quickly and promptly paid for, on account of his methods of keeping his goods constantly before the public. Discriminating buyers of every class know that they can get fresh goods from the store that advertises. The merchant who advertises seldom has shop-worn goods. And in that way advertising helps the merchant's credit not only with the banks, but with his customers. And one is just as important as the other.

Naval Men Excluded
From Active Politics

Cannot Make Any Speeches Or Serve On Committees

Naval men will be virtually excluded from active politics by a new order issued by the Admiralty.

The order forbids any naval officer or man to make an address to electors or in any manner allow himself to become a candidate for Parliament. The prohibition applies also to the Parliament of Northern Ireland, the Free State Dail and the Malta Parliament, and forbids speaking or appearing on the platform at political meetings or serving on election committees.

It is provided that naval officers must seek permission from naval authorities if they wish to enter the political field.

Sam—"Yes, sar. You got the gentlest, best-natured man fo' a husband, Liza."

Liza—"Go wan. They's only one way to call it—laziness."

Wife—John, dear, when I go to Palm Beach I shall dream of you every night.

Hub—I'd rather you stayed here and dreamed of Palm Beach.

Wyoming is attempting to round up the thousands of wild horses in the state.

Tilly: "Don't you dare swear before me."

Billy: "Pardon me, go ahead."

A woman runs almost as fast when she sees a mouse as a man does when he hears a baby crying.

The quantity of meat consumed in Great Britain last year was 1,000 tons per week greater than in 1925.

The more lawn some people have to mow the more they borrow the mower.

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER VII.—Continued

The magistrate proceeded to give judgment. "Stand up," he commanded again.

Helm stood.

"You see — she understands — I thought she did."

Addressing Helm he said, "You could have cleared yourself perhaps of one charge, but not of the other. So I have no option but to send you to jail. You shall be confined for three months at Stoney Mountain."

Miss Rodgers was on her feet. "I appeal the case," she said.

The court room began to empty. Only the regulars held their seats. The transients were going. Some of the women would go back to attack the dishes they left in the sink; others went to inspect the shop windows; two of them strolled leisurely down to the White Lunch to have a cup of coffee and a piece of pie. It was near lunch time, and as Mrs. Morris remarked to her friend Mrs. Edgar, "When a woman has only herself to cook for, she never cares when or what she eats."

They discussed the case as they sat at the marble topped table.

"That girl was innocent," said Mrs. Morris, "but foolish, I'll bet she's shielding a man."

"Oh, I don't know," remarked her friend; "I remember when I was her age I had an awful crush on a woman about ten years older than I was. I forget her name now, but she was my goddess for the time. There was something fine in that girl's face — something noble. It seems a pity to send her to jail, where she will have to see and hear everything that's vile and ugly. The whole thing is rotten."

"Well," said the other one, "why don't we try to do something?"

"What's the use?" Mrs. Edgar was breaking her pie with her fork. "Women never hold together. That's why people like Magistrate Windsor can insult the women's organizations and get away with it. The women's clubs are trying to make things better, and they get blamed for what goes wrong. You and I do nothing and therefore are never blamed for anything. Great system!"

"Well, some of the women in the clubs are funny," said Mrs. Morris. "I saw one of them the other day getting her money out of a pocket in her petticoat. She's one of their big spouters, too. Why don't they keep up with the times, visit beauty parlors and learn the use of cutex?"

The other woman considered a moment. "Still, there's nothing criminal in keeping money in the pocket of your petticoat," she said, "when you come to think of it. She was lucky."

The women's clubs are trying to make things better, and they get blamed for what goes wrong. You and I do nothing and therefore are never blamed for anything. Great system!"

"Well, some of the women in the clubs are funny," said Mrs. Morris. "I saw one of them the other day getting her money out of a pocket in her petticoat. She's one of their big spouters, too. Why don't they keep up with the times, visit beauty parlors and learn the use of cutex?"

The other woman considered a moment. "Still, there's nothing criminal in keeping money in the pocket of your petticoat," she said, "when you come to think of it. She was lucky."

"What's the use?" Mrs. Edgar was breaking her pie with her fork. "Women never hold together. That's why people like Magistrate Windsor can insult the women's organizations and get away with it. The women's clubs are trying to make things better, and they get blamed for what goes wrong. You and I do nothing and therefore are never blamed for anything. Great system!"

Matron interrupted to ask him to retract the word "fallen." She gave the Board members positive chills by the things she said about the double standard of morals which was made by men to shield men, and went on to tell them that many of the girls were innocent young things from the country who had come to work in the city to help the family at home, and had fallen victims to men's lust and hypocrisy. The very men who led them astray, fathers of families some of them, and regarded as respectable men in society, no doubt now spoke of these girls as "fallen women."

It was most embarrassing. She hinted that there should be women on the Board and questioned the ability of men to quite understand the problems of rescue work.

Anyone can see from this what sort of woman the Matron was and why the Board dismissed her. The girls had loved her and had done their best to carry out all her wishes. They had scrubbed and washed and polished the Home until it sparkled; they had planted a garden and made flower beds; they had sewed and crocheted and embroidered; they had studied, sung, prayed, and bravely tried to live a useful happy life. The day she left the scenes were disgraced — not a girl eat a mouthful — they just sat and cried. The Board could see they had done well to get rid of her; she was having such a weakening effect on the girls.

The Board decided then and there to have a man for the head assisted by a woman of course. "There must needs be a woman" said the good old Dr. Smythe, "for appearance sake at least." So, after diligent care, Mr. and Mrs. Wymuth were found somewhere in the East where they were doing evangelistic work. Their letters of recommendation abounded in such terms as "earnest co-operation," "moral worthiness," "deep sincerity," "unfailing devotion," "passion for souls," etc. The Board was pleased with their joint and several appearance.

(To Be Continued.)

There were numerous references in the dedication speeches to the lost lambs of the flock, pierced by many a thorn; the white lily bruised and broken and crushed in the dust of life, the lost piece of silver which caused such a household upheaval. The speeches were made by the ministers of the city, who in large proportion made up the Board; the other members being of that type of middle-aged portly gentlemen who are usually alluded to as "solid business men."

The Board had its troubles, and sometimes even contemplated adding women to its numbers. Some of the ministers made that suggestion, speaking enthusiastically of the excellent help they received from Ladies' Aid and other societies in their churches. As a rule the solid business men opposed the proposal. It was felt that the presence of ladies might prove embarrassing. There were certain matters which were best discussed by men alone — besides, there was always a danger of women being too emotional. There was an Auxiliary Board, composed entirely of women, who held bazaars, teas, chicken suppers, made towels and sheets, looked after the girls' clothing, solicited donations and in general did all those little unimportant, yet necessary things which women do so well. It was felt by the majority of the Board that the women had their part, and it would be better not to confuse the issue.

The first difficulty the Board experienced was with a Matron — rather a young person she was for such an important position, scarcely forty, who had come highly recommended from one of the Western States. She had many relatives in the city, and it was felt that her appointment might interest some more of the solid business men in the home, for her relatives were of that type.

She began by making some sort of a merit system in the Home, which was rather alarming. She unlocked the doors; insisted that the girls lay aside the mud-colored uniforms which the Board had decreed should be worn, and actually took the girls out with her in turn to the movies and to concerts and lectures. She also had her friends come with their cars every week to take the girls for drives. She planned picnics, corn-roasts, excursions, and indeed made the Home such a happy place that not one of the girls attempted to escape, although they had every opportunity to do so.

The Board looked on calmly disapproving, yet helpless. But the matter came to a crisis at a meeting where the Matron was present by request. One of the members (and one of the most solid, too) began by pointing out that there should be some differences in the way well-behaved girls and fallen girls are treated. Here the

Experiments of more than thirty years have proven that Aluminum is the best container for tea. Red Rose Tea is now packed only in Aluminum, and every package is guaranteed to be in perfect condition.

Lates Idea In Novelty Revue

A Novel Idea Is Put Across At the Calgary Exhibition

American producers of theatrical revues looking for new ideas for fairs and exhibitions may profit by an original novelty recently offered at the Calgary Exhibition and Stampede. The feature of the evening program in front of the grandstand was listed as a "Grand Novelty Revue." At the first performance the audience expected to see a bevy of pretty girls on the stage when the curtain went up for the "Grand Novelty Revue." Instead they saw some of the aristocrats of the live stock world of Western Canada. Then followed a series of scenes illustrating the progress of agriculture in the Canadian West from the time of the passing of the herds of buffalo down to the present time. The pure bred stock that took part in the revue seemed to be conscious that they were expected to "do their stuff" well and they did it. The revue was staged with elaborate scenic and lighting effects and was a popular success from the start. During the week the exhibition was on the revue drew capacity audiences and throughout the week a record attendance was registered at the "dressing rooms" of the principal actors and actresses. The revue showed that the fame of Western Canada does not rest only on the fact that it is one of the world's principal wheat producing areas, but is an important producer of every kind of live stock.

Another British Aviator Killed

Young Officer Was Fortieth Victim This Year

Fatal casualties in the Royal Air Force this year rose to forty when Pilot Officer Harold C. Kelly, twenty-three years old, died in a hospital soon after his single-seater Woodcock fighting plane had fallen at the Avon Wiltshire airdrome.

Strychnine was administered to the flyer as axes and wire-cutters were used to extricate him from the wreckage of the machine, which, in getting into a tall spin at 400 feet corked three times and then crashed into a nose dive.

Kelly was still alive when lifted from the cockpit, but died shortly after his arrival at the hospital. He had been in a similar accident two years ago, both arms and one leg being broken, but he was undeterred and continued his flying exercises in view of qualifying for a flying officer's certificate. It was the fifth fatal accident associated with this airdrome in six weeks.

Sores Flee Before It—There are many who have been afflicted with sores and have driven them away with Dr. Thomas' Electric Oil. All similarly troubled should lose no time in applying this splendid remedy, as there is nothing like it to be had. It is cheap, but its power is in no way expressed by its low price.

Would Avert Oil Famine

Scientist Discovers Process To Get More From Wells

An impetuous government scientist has developed a process which will permit nearly 100 per cent. of the oil supply to be taken from oil wells instead of 15 per cent., which is the present average.

Dr. P. G. Nutting discovered that by the simple use of washing-soda this elusive 85 per cent. of hidden oil could be dissolved and extracted from the sand.

Laboratory tests were 100 per cent. perfect, but in actual field operation the results may not be so great. Oil experts say if it goes 40 per cent. it will save off for a considerable time the anticipated oil famine which is expected to develop at the end of six years.

Employment Agency Manager—So you'd like to employ a mason. What kind do you want?

Hi—I'd like to have one of them Free Masons I've heard so much about.

The fire brigade of a European village dashed into the village inn and the chief fireman said:

"Beer and sandwiches all around, please, and hustle up the order. We ain't got any too much time. We're on our way to a big fire."

Tablets found in ancient Babylon and Assyria show that banking transactions were carried on 5,000 years ago. Cheques and notes were made of clay, which were then baked.

Drives away pain—Minard's Liniment.

Will Return War Relics

U.S. Colonel Has Large Collection Of German and Austrian Souvenirs

A man of 52, whose diffident manner and youthful face belie his age and his attainments, sailed from New York recently, en route to Hamburg, Germany. With him a small wooden box and a large packing case.

The man, who is Lieut.-Col. George Crouse Cook, R.C., U.S.A., possessor of a Conspicuous Service Cross for work during the World War, will, if asked, refer to the contents of the wooden box and the packing case as "junk," but he has cherished that junk enough to have catalogued every item of its 500 component parts.

Specifically, the small box contains such things as caps, epaulettes, citations, pay books, Iron Crosses, wound medals, etc. all belonging to German or Austrian troops who fought the Allies, and picked up by Col. Cook during his service in France. The packing case is filled with Zeppelin parts, pieces of shell, helmets and larger trophies.

Col. Cook, for example, will try to find Alfred Merten, of Gothia, Saxony. For in the small wooden box is an infantry cap and a shoulder strap which were taken from Merten by the French at Blaches in Artois, July 9, 1916. Col. Cook wants to restore the cap and strap and learn Merten's version of the war.

Another item Col. Cook wants to give back is a wound decoration, a stamped medal, finished in silver, that was bestowed upon Wladislaus Jagla of the Fifth Company, 463rd Prussian Infantry, for being wounded four times at the front. Jagla was captured on September 30, 1918, at Montigny.

Mothers

We take pleasure in announcing that we have been appointed sole agents in this district for the marvellous

Canadian Westinghouse Radios

and will shortly have on display and for demonstration several of the ELEVEN DIFFERENT STYLES AND MODELS

priced from \$30 up.

Wait before you buy a radio for a demonstration of this outstanding make, which is years ahead of others with SPECIAL TUBES THAT OPERATE FROM LIGHT CIRCUIT, requiring no B Batteries.

CLAYBURN

Mr. Cornwall has built a water tower on his farm and is installing a water system in his home.

The first league football match of the season was played at Clayburn on Saturday, when the home team scored 2-1 against Ladner.

Mrs. Graham visited in New Westminster over the week-end.

Miss Shirley Seldon left on Saturday for Vancouver, where she commences training in the General Hospital.

Miss Emily Gillies has returned to her duties at the Vancouver General Hospital after a vacation here with her parents.

Mrs. Harvey Snider of Langley Prairie is visiting at the home of her parents, Mr. and Mrs. Richmond.

Proficiency list, Clayburn School:

Grade 5—Leslie Mander, Hampton Bullock, William Bullock; Gr. 6—M. Basani, Elizabeth Scott, Dorothy Case; Gr. 7—Doris McCulloch, Margaret Scott, James Hartley; Gr. 8—Nels Sandberg, Tommy Scott, Bessie Domke; Gr. 9—Velma Hartley, Gwen Peachey, Jean Ayling; Gr. 10—Barbara Wood, Jessie Macbeth; Gr. 11—Frances Wilson, Marie Bailey.

Mr. and Mrs. Callahan have returned from a visit in Kamloops.

Many Attend Thanksgiving Services

Thanksgiving services in Trinity Church were well attended and especially interesting both morning and evening. The Church was decorated with the greatest profusion of flowers, and largest donation of fruit and vegetables in its history.

Special music was rendered by the choir, the soloists being—Mrs. Coutts, Mrs. Gray, Mrs. Schnar, Miss Jennie Stobbs and Rev. T. S. Paton.

In the afternoon similar services were conducted at Poplar, by Mr. Paton.

The fruit and vegetables from both Churches amounting to 10 sacks, and 1 case of bottled fruit, were shipped to the United Church's Rescue Home for Girls, in Burnaby, last Tuesday.

Next Sunday Mr. Paton will conduct Thanksgiving services at St. Paul's Church Huntingdon.

Huntingdon-Sumas Board of Trade will meet at Huntingdon next Tuesday evening.

Mrs. T. MacMillan is confined to her room with a severe cold.

FRED. WOODS

GOLD MEDALLIST

Horseshoer & Blacksmith

Intends to make regular calls upon farmers throughout the district to shoe horses. A proper fit and careful workmanship at the very lowest prices is guaranteed. Phone me at once if you are needing this work, and quick service will be given.

Berry Grower Advised Of Prices Paid By Prairie Retailers

By enclosing return cards in his crates of raspberries shipped east this year, Mr. J. Frith has secured a mass of valuable information, covering condition of fruit upon arrival, name of retailer who received it, and most important of all, the price paid per crate. Some of the figures quoted were as high as \$4.75 per crate—which compared to the \$1.65 to \$1.75 obtained by the producer here certainly indicates that the grower is very little better off now than he was previous to the noisy berry jobber "expose." L. I. Curtis, who shipped well on to 2,000 crates of first class raspberries this season obtained an average price of \$1.62 per crate. Very little estimating is required to show what such a marketing condition means to just this one grower.

Mrs. Baines Laid At Rest

The remains of Mrs. Richard Baines, of Matsqui, were reverently laid at rest in Hazelwood cemetery last Thursday afternoon, Rev. J. White of Clayburn Trinity Church officiating. Other than the relatives, a long cortege of friends and neighbors of the deceased woman followed the coffin, which was banked high with beautiful flowers.

Pallbearers were the five sons of the deceased, John, William, Fred, Leslie, and Charles, and a grandson, Bruce Davidson.

With the approach of colder weather the police urge citizens not to leave overcoats of other clothing in open cars or other exposed places, a temptation to tramps. Care is making their homes secure when going out is also requested.

Mr. A. Conway has purchased a Nash touring car from Constable Greenwood.

TRINITY UNITED CHURCH

Rev. T. S. Paton, B.A., Pastor

The Summer Motoring Season Is Over....

Your car, truck or tractor needs some attention—for in motor repairs, as in anything else, a stitch in time saves nine—and valves are sure to need grinding, carburetor cleaned and adjusted for winter, carbon removed, ignition checked over and grounds eliminated. For the winter weather is approaching and you want your machine to give the same satisfaction in the cooler and colder weather that it has all summer. In this work we give honest workmanship at very reasonable rates. REMEMBER—WE BACK UP OUR ADVERTISING—
